

WINGMASTER

**A NEW CONCEPT IN R/C FLYING. BUILD IT IN 5 HOURS.
FLY IT FOR LESS THAN \$200.00 TOTAL INVESTMENT
INCLUDING ALL R/C EQUIPMENT**

By utilizing low cost materials and techniques in the production of the new "Wingmaster," Kraft Systems, Inc., provides a solution to increased modeling costs and complexities. Featuring rapid construction and amazing versatility, this aircraft offers an escape from the tediousness of present model design. Combining the benefits of foam

wing cores with the strength and simplicity of cardboard covering material, the "Wingmaster" accomplishes a low cost and fast building structure. Increased strength and economy were gained by substituting woods other than balsa wherever possible.
